The PACT Programs

Parents and Children Together

Learning ☆ Exploring ☆ Bonding

An 8-part series of educational programs designed to bring parents into their children's educational environment to help nurture and strengthen the educational relationship between parents and their children.

Kindergarten - Our Backyard Friends

In this program participants will learn about the needs of animals in our environment and ways we can help the animals in our backyard. Students and parents may be able to create a bird feeder, bird house, squirrel feeder, bat house, or a nesting material cage. Throughout the nights, families will explore various ways that these animals are helpful and understand the importance of conserving our environment.
